Bayside Community Church,  
Kingston

Rev. Rex Niblack  
Rainier Chapel, Rainier

Rev. Jon Oletske  
Stone Church, Yakima

Rev. Ken Parsley  
Church on the Move, Yakima

Rev. Jim Ripley  
Ripley Evangelistic Association

Rev. Reuben Sapien  
The Sanctuary Church, Lynnwood

Rev. Dan Secrist  
Faith Assembly of Lacey

Dr. Ken Squires  
Marysville First Assembly

Rev. Dwain Wolfe  
New Horizons Christian Center, Fife

## Board of Directors

Rick Forcier  
Executive Director, Olympia

Paul Middleton  
Chairman, Olympia

Dennis DeFries  
Secretary, Olympia

Jim Winterstein  
Treasurer, Olympia

Scott Blanton  
Vancouver

Dorsey Holt  
Tacoma

Jere Irwin  
Yakima

Peggy Kirk  
Ocean Shores

Dick Raport  
Camano Island

Jim Robinson  
Spokane

Fred Weiss  
Bellevue

## Staff

Sharon Crain  
Office Manager

Beth Davis  
Accounting

Kathryn DeFries  
Event Coordinator

Julie Gallagher  
Prayer Coordinator

Rusty Howell  
Field Director

## A Lifestyle Some Will Die For

*“The look on their faces testifies against them; they parade their sin like Sodom; they do not hide. Woe to them! They have brought disaster upon themselves.” (Isaiah 3:9)*

Dear Friends:

This week, the U.S. Supreme Court is considering a ruling by the State of New Jersey, which directs the Boy Scouts of America to affirm homosexuals for positions of leadership. No doubt the arguments will range from equal rights to freedom of association. But what the high court should really consider is the young boys who will be at risk if their role models, their scoutmasters, uplift homosexuality as a positive way of life.

In his book, *Enough is Enough*,<sup>1</sup> Rev. Rick Scarborough,<sup>2</sup> Senior Pastor of First Baptist Church in Pearland, Texas warns of the deadly consequences of the homosexual life-style in a chapter titled “From the Closet to the Classroom.” The following selections from that chapter are very offensive and you may prefer to stop reading at this point:

“Gay men have between 20-100 different partners each year, and between 300-500 during their sexual lifetime. Sex and eroticism drives their culture whether it happens to be gay art, gay theater, or a gay bar. They engage in their sexual activities in public parks, roadside rest areas and malls where...they have perfected the art of anonymous sex.”

### What Do Homosexuals Actually Do?

“Dr. Stanley Montieth, a medical doctor and author of *AIDS, The Unnecessary Disease*, describes what gays mean when they demand the right to their alternate life-style.

- 100% of all male gays engage in oral sex.
- 93% of all male gays engage in rectal sex. He points out that the rectum is not physiologically designed for this use and it results in physical tearing and damage.
- 92% of all male gays engage in “rimming:” the practice of licking the rim of the anus, ingesting various amounts of fecal matter.
- 47% of all male gays engage in “fisting:” the practice of inserting a fist into their partners’ rectum for sexual pleasure.
- 29% of all male gays engage in “golden showers:” the practice of lying on the floor, typically nude, and allowing a partner to urinate on them.
- 17% of all male gays engage in “scatting:” the practice of eating and handling feces. This often accompanies “mudrolling” or “rolling in feces.”

The “Homosexual life-style encourages a variety of diseases, among which are colonitis, mucosal ulcers in the rectum, and a psoriasis of the rectum and genitals known as Kobner’s phenomenon.

Recently, a new epidemic has raced through the homosexual community. A group of rare bowel diseases, previously thought to be tropical, has been dubbed, “Gay Bowel Syndrome. They include:

- *Amebiasis*, a colon disease caused by parasites. Symptoms include diarrhea, abscesses and ulcers.

- *Giardiasis*, a bowel disease caused by parasites. Symptoms include diarrhea and occasionally enteritis.
- *Shigellosis*, a bowel disease caused by bacteria. Symptoms include severe dysentery.”

"Not only are homosexuals literally killing themselves with many diseases unique to their life-style, they are contracting more conventional types of sexually transmitted diseases as well. The median age of homosexual men dying with AIDS is thirty-nine, the median age of other homosexual men dying of all other causes is forty-two. The median age of death for lesbians is forty-five. Only one percent of all homosexuals die of old age and only 3% ever live to age fifty-five."

In another book, *Homosexuality and the Politics of Truth*,<sup>3</sup> Dr. Jeffrey Satinover, M.D., says the risk of contracting the AIDS virus during a random and single act of unprotected heterosexual intercourse is 1 in 715,000 even in the absence of any information about one's partner. But a single act of unprotected intercourse with a twenty to thirty-year old male homosexual carries with it a transmission risk of roughly 1 in 165. According to Dr. Satinover, epidemiologists estimate that one-third of all twenty-year-old homosexual males will be HIV -positive or dead of AIDS by the time they are thirty.

"The correlation between male homosexuality and disease," says Dr. Satinover, "has been recognized for at least two thousand years. Thus the Apostle Paul, writing during the heyday of the Roman Empire when licentiousness was rampant, observed that 'Men committed indecent acts with other men, and received in themselves [sometimes translated *in their bodies*] the due penalty for their perversion."

Christians are accused of "hating" homosexuals. But, is it hateful to warn them of the deadly physical and spiritual consequences of practicing homosexuality? Are we bigots because we want to protect children from the painful and deadly diseases listed above? The loving thing to do is to tell the truth about homosexuality.

Focus on the Family staffer and former homosexual, John Paulk, shares the truth about homosexuality as national spokesperson for the ex-gay movement. "My wife and I, and thousands of others, serve as living proof that change is possible. By taking a bold stand against the lies that say homosexuality is biological and unchangeable, we hope to encourage others desperate to escape homosexuality."

America, including the church, is becoming more and more enamoured with the homosexual community, bewitched by their message of tolerance. The question that the serpent asked Eve, "Did God really say...?" is being asked in churches across America, as church leaders misinterpret scripture to embrace homosexuality. We see the evidence of churches departing from the Bible, as more and more mainline denominations are affirming homosexual unions and allowing homosexuals to occupy their pulpits. This is why we must RUN, not walk, but RUN to God, to His words of truth, and proclaim them to our nation.

For "the truth shall set you free."

Respectfully,

Rick Forcier  
Executive Director
